LED/PIXEL PLACEMENT LAYOUT

(For use with software such as Madrix to enable individual pixel control)

Individual LED control is only possible when using dedicated pixel mapping software like Madrix.

This fixture does not support per-pixel control via DMX.

Instead, only predefined pixel segments around the beams can be controlled using DMX

BEAMZ

YOUR FUTURE
YOUR SKILLS
YOUR PLATFORM
YOUR PARTY
YOUR EVENT

offers a wide range of high performance lighting equipment and related accessories for the rental, entertainment and architectural lighting markets. BeamZ Pro stands for performance, innovation and value pricing!
