## HB01

Ultimate Wah-Wah Pedal with  
Optical Control

- Multi-functional Wah-Wah pedal—offers everything you need for all styles and sounds
- This BEHRINGER product has been designed to compete head to head with leading products on the market
- Total optical control for wear-and-tear-free pedal operation (no mechanical pots and switches)
- Unique spring-back pedal mechanism with resistance adjustment for ultimate playing style (option to remove)
- Heel-down frequency range freely adjustable via Range control (440 Hz to 250 Hz) for use even with bass guitars
- Additional Fine Tune control allows high-end extension of sweep range for incredibly bright, ultra-present tone
- Ultra-musical Q control for precise filter shaping to achieve vocal-like effects
- Tunable boost function including On/Off switch to push your licks up to the limit

The HELL-BABE HB01 is unlike any wah you've ever stepped on, offering a tremendous array of tone-sculpting options. You get everything from "old-school" wah to the most up-to-date sounds, all in one mesmerizing effects pedal. Add to that optical control that does away with noisy pots, an adjustable spring mechanism and tunable boost, and this babe's a contender! The HELL-BABE will add new dimension and depth to your artistic expression.

### What's So Great About the HELL-BABE?

First of all, the HB01's heel-down Range control provides low frequency adjustment that can be swept from 440 Hz down to 250 Hz, making the HB01 the ideal companion for either guitar or bass. For custom-tailoring the toe-down frequency range, the HELL-BABE features a Fine control, allowing you to adjust the frequency sweep as high as 2.2 kHz.

Ultimate Wah-Wah Pedal with  
Optical Control

- Dual LED indicators for Effect On/Off and Boost On/Off at the tail of the pedal for total control
- Ultra-low noise circuitry for outstanding audio performance
- Runs on 9 V battery or the BEHRINGER PSU-SB DC power supply (not included)
- 3-Year Warranty Program\*
- Conceived and designed by BEHRINGER Germany

## Volume Boost

You can even dial in a powerful volume Boost (up to +15 dB), so that when you do step on the HB01, your guitar will rise to the top of the mix. A highly versatile Q control is provided for precise filter shaping and for achieving vocal-like effects.

## No-Nonsense Build Quality

Unlike anything else on the market, the HELL-BABE uses no mechanical pots or switches, which significantly reduces on wear and tear. But that's not all that separates this pedal from the pack; it also features a spring-back pedal mechanism with resistance adjustment. And thanks to our ultra-bright LED indicators you'll always know when it's on – and when the volume boost is activated. You can power this babe with a 9 V battery or our PSU-SB DC power supply (not included).

## Sound Value

The super-affordable HELL-BABE HB01 is loaded with amazing tone-sculpting and user-friendly features, and is quite a bit more versatile than your dad's old wah. Modern and customizable with optical circuitry and an adjustable spring return – this HELL-BABE's a keeper. Step on one today at your BEHRINGER dealer, or order online – and experience "love at first wah!"

## You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Group factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [3-Year Warranty program](#).
